

President's Report

For First Half 2014

LT Group, Inc. (LTG) reported an attributable net income of Php2.16 billion in the first half of 2014, compared to Php6.95 billion for the same period in 2013, as challenges continue to weigh down on its various businesses.

LTG's share in Philippine National Bank's (PNB) Php3.12 billion net income, under the pooling method, amounted to Php1.79 billion. Part of the PNB's income in 2Q14 included a Php1.34 billion gain from the sale of Victorias Milling Company (VMC), with the effective share of LTG from its 56.47% stake at Php756 million. As LTG purchased the 161.98 million VMC shares in April, its share from the sale of the VMC shares should be eliminated from LTG's attributable net income from PNB.

PNB's attributable net income contribution to LTG amounted to Php1.031 billion or 48% of total attributable net income. The tobacco business provided Php710 million or 33% of total attributable net income, followed by Asia Brewery, Inc. (ABI) with Php628 million or 29%. Eton Properties accounted for Php38 million or 2%. Tanduay Distillers, Inc. (TDI) realized a loss of Php172 million.

LTG also recognized Php18 million in Equity in Net Earnings from its stake in VMC which stood at 17.5% of common shares. Inclusive of the convertible notes of VMC that LTG purchased, LTG's effective stake in VMC is at 23.5%.

In May, LTG paid dividends to common shareholders amounting to Php1.7 billion or Php0.16 per share, equivalent to a 20% pay-out of 2013's attributable net income.

LTG's balance sheet remained strong, with the parent company's cash balance at Php12 billion as of the end of June 2014. Debt-to-Equity Ratio was at 3.33:1 as of end-June 2014 with the bank, and at 0.20:1 without the bank.

Philippine National Bank (PNB)

PNB reported a profit of Php3.12 billion in 1H14, 48% lower than 1H13's Php6.03 billion. This is largely due to higher trading gains last year. In 1H13, PNB booked Php7.97bn in trading gains, substantially higher than the Php1.96 billion realized in 1H14.

In the first half of 2014, Interest Income generated reached Php10.24 billion, 7% more than 1H13, largely due to higher income from deposits with banks/others (SDA). Loans were also higher at Php271 billion as of end-June 2014 from Php258 billion as of end-2013. Consumer loans posted a 17% ytd increase to Php32 billion from Php27 billion.

On the other hand, Interest Expense was Php1.13 billion or 37% lower than 1H13 largely due to lower funding costs with the redemption of the Bank's more expensive subordinated debt. As a result, Net Interest Income was 28% higher y-o-y at Php8.28 billion, while Net Interest Margin improved to 3.3% from 2.7% a year ago.

Net Service Fee Income was relatively flat at Php1.28 billion.

PNB had a Stock Rights Offering in mid-February 2014 that raised a total of Php11.6 billion. Ten billion pesos of the proceeds will be used to recapitalize PNB Savings Bank, which will be used to grow the bank's consumer loan business. PNB Savings Bank is targeting to open over 20 branches this year.

LTG subscribed to the Offering to the extent of its beneficial ownership. Pending the approval of the increase in authorized capital (to issue additional shares) of PNB, Php9.2 billion of the proceeds are temporarily booked under Deposit for Future Stock Subscription, under Liabilities.

Tobacco

LTG's income from the tobacco business amounted to Php710 million for the first half of 2014, 73% lower than the Php2.61 billion reported in 1H13.

Fortune Tobacco Corporation (FTC), LTG's holding company for the tobacco business, reported a net income of Php713 million, Php1.9 billion or 73% lower than 1H13's Php2.62 billion. FTC's income includes Php180 million from the sale of a 2,000 square meter lot along Gil Puyat Avenue in Bel-Air Village, Makati to a third party, in the first quarter of 2014.

LTG's equity in net earnings from its 49.6% stake in PMFTC amounted to Php687 million, Php1.56 billion or 69% lower than 1H13's Php2.25 billion. PMFTC continues to be adversely affected by the illicit trade in cigarettes.

There was another round of increase in the excise tax starting January 1, 2014. These rates apply to cigarettes that are withdrawn from the factories this year. In the upper tier, which covers the premium brands like Marlboro, the excise tax increased by Php2/pack of 20 sticks to Php27 from Php25. There was a larger increase in the tax of the lower tier at Php5/pack to Php17 from Php12.

PMFTC's shipment volume in 2Q14 improved to 17.2 billion sticks from 16.2 billion sticks in 1Q14. This brought 1H14 volume to 33.4 billion sticks, slightly higher than the 32.6 billion sticks in 1H13.

The share of the super-low segment has somehow stabilized and accounted for 39% of the total industry's volume as of May 2014. This is lower from the peak of 47% in 3Q13.

In this super-low segment, Mighty continues to sell *Marvels* at Php1.25 per stick or a truck price of Php18.30 per pack. This is below cost as this does not even cover the excise tax of Php17/pack and VAT of Php1.96/pack, or a total of Php18.96/pack for taxes alone. Until *Marvels* goes to the correct price point, Philip Morris International (PMI) has disclosed that we are obliged to maintain some presence in this segment. And for our brand *Jackpot*, we have to subsidize the excise tax. The "Mighty" brand is likewise sold at below cost, at a truck price of Php23 per pack, with excise tax at Php17 and VAT at Php2.46, leaving only Php3.54 to cover production and distribution costs.

Based on Nielsen estimates on customer offtake, we have been able to stabilize our market share at the over 70% level, from the fourth quarter of 2013. Since the implementation of higher excise taxes in 2013, our market share declined from over 90% due to the availability of cheaper cigarettes that are priced at below cost when paying full taxes.

The Bureau of Customs (BoC) closed Mighty's customs bonded warehouse (CBW) in mid-January 2014, and imposed an initial re-assessment of duties and taxes amounting to Php853 million for the CBW in February. The BoC recently assessed another Php216 million on Mighty, and continues to review Mighty's importations over the past three years. The Government is expected to implement tax stamps soon, and release the Implementing Rules and Regulations (IRRs), which will require manufacturers to purchase and paste numbered stamps on each pack of cigarettes.

LTG, PMFTC and PMI will continue to work closely with the Philippine Government to try to stop the illicit trade of cigarettes. Other measures that would help stem the illicit trade include the 24/7 monitoring of all factories as well as a third party audit for all cigarette manufacturers.

Asia Brewery, Inc. (ABI)

ABI's net income for the first six months of 2014 reached Php629 million, 30% more than the Php483 million reported in the same period in 2013. Revenues were 5% higher y-o-y, boosted by our water and energy drink brands. GPM was slightly lower at 28% from 29% due to higher raw material costs, but the 12% decline in operating expenses, largely due to lower selling and marketing expenses, further enhanced the growth in net income.

Cobra, our carbonated energy drink, continues to account for the biggest share of revenues at close to 38% and have a market share of over 70%. There was a growth in Cobra's volume in the second quarter of 2014, from the slight decline posted in 1Q14.

Our water brands, Absolute and Summit, remain market leaders, and sales volume continues to increase in the high single digit range for the first half of the year. Tanduay Ice's volume

improved in 2Q14 over 1Q14, but sales volume continues to be affected by the intense competition in the beer market as this product competes with light beers. The re-launch of Colt 45 in June and intensified marketing efforts helped increase beer sales over the quarter, but sales revenues are still 10% lower y-o-y in 1H14.

Vitamilk, our soymilk drink under an exclusive distribution agreement with Green Spot of Thailand, continues to be the country's leading soymilk brand. Sales volume has been increasing monthly, and has almost doubled from the year-ago level. Construction of our soymilk plant is ongoing, and we are targeting to start manufacturing the soymilk within 2015.

Eton Properties

Eton's net income amounted to Php38 million for the first half of 2014, substantially lower than the Php204 million reported for the first half of 2013. Note, however, that Eton's net income settled at Php105 million for the whole of 2013.

Revenues from the sale of residential units reached Php597 million, 69% lower than the Php1.91 billion reported in 1H13. Revenues were largely from the construction completion of previously sold units as the company did not launch any new projects. There was also a halt in the construction of One Centris Place and First Homes Makati to give way to design improvements and enhancements.

Leasing revenues were 10% higher at Php274 million from Php249 million in 1H13 with the start of the contribution of Centris Cyberpod Three at Eton Centris, in Quezon City, Metro Manila.

In January 2014, Eton started turning over the BPO office spaces in Centris Cyberpod Three, a two-tower BPO office building with a gross leasable area of over 60,000 square meters. As of the end of June 2014, around 87% of the north and south towers have been taken-up.

Leasing revenues are expected to further increase as more tenants start commercial operations in Centris Cyberpod Three. The company also expects higher lease rates from new or renewed lease contracts in other buildings. Around 80% of Eton's current portfolio is up for renewal in the second half of 2014 and 2015. These contracts currently have lease rates at slightly over Php400 per square meter per month, lower than the average of Php550 per square meter per month that the company has been able to get for Centris Cyberpod Three.

Eton currently has 122,700 square meters of office space and 20,700 square meters of retail space in its portfolio. The Company plans to increase its leasing portfolio by constructing more BPO office buildings.

Tanduay Distillers, Inc. (TDI)

TDI's reported a net loss of Php172 million for the first half of 2014, a reversal from an income of Php43 million in the same period in 2013.

Revenues reached Php5.56 billion, 14% more than 1H13's Php4.88 billion, on the back of a 17% increase in sales volume to 8.0 million cases. Our flagship product, Tanduay Five Years, accounted for 73% of total volume and grew by 33% y-o-y as more customers shifted from the lower-alcohol Tanduay Light. For the newly-launched Compañero brandy blend, we have sold close to 400K cases for 1H14 as we penetrate more of the Metro Manila area, backed by an intensified advertising campaign.

However, GPM dropped to 17% in 1H14 from 21% in 1H13 due to discounts given to wholesalers, as well as higher costs of alcohol and other raw materials, and the acquisition of new bottles. Operating Expenses likewise increased with higher selling and marketing expenses, while the company absorbed freight costs that were previously passed on to customers, resulting to a loss for the period.

According to Nielsen, TDI's overall market share slightly improved to 25.6% as of end-June 2014 from 23.8% as of end-March 2014 and 23.3% as of the end of 2013. This shows that TDI's market share has stabilized, from the continuous drop since 2011. TDI continues to have the largest share of the Visayas-Mindanao market, at 59.2% as of end-June 2014, slightly higher than end-2013's 58.3%. Our market share in Metro Manila and the rest of Luzon is still below 5%.
